

Vakuumtec lubricants for vacuum pumps and compressors

■ VTO-100

Standard mineral oil for low ultimate pressures of rotary vane, external vane and roots pumps (comparable to Edwards UG20, Leybold LVO 100, Pfeiffer P3, Klüber M-100V)

■ VTO-130

Mineral oil for single-stage rotary vane pumps (comparable to Edwards UG19, Leybold LVO 130, Klüber WA-70V)

■ VTO-210

Synthetic diester oil for high operating temperatures with excellent wear protection for all mechanical vacuum pumps (comparable to Leybold LVO 210, Pfeiffer D1, Klüber DSL-100, Anderol 555)

■ VTO-500

Standard diffusion pump oil for high vacuum applications (comparable to Edwards Apiezon B, Leybold LVO 500, Klüber M-60VD)

■ VTO-521

Extremely pure high-quality silicone oil with the best performance for diffusion pumps at high and ultra-high vacuum applications. (comparable to DC, HSR, Invoil 704 and 705 or AN140 and AN175)

■ PFPE Öl

Synthetic PFPE oil with chemically and thermally highly stable characteristics for pumping out strong oxidants as well as reactive substances (comparable to Edwards YLVAC, Fomblin, Krytox, Leybold LVO 400, Pfeiffer F5)

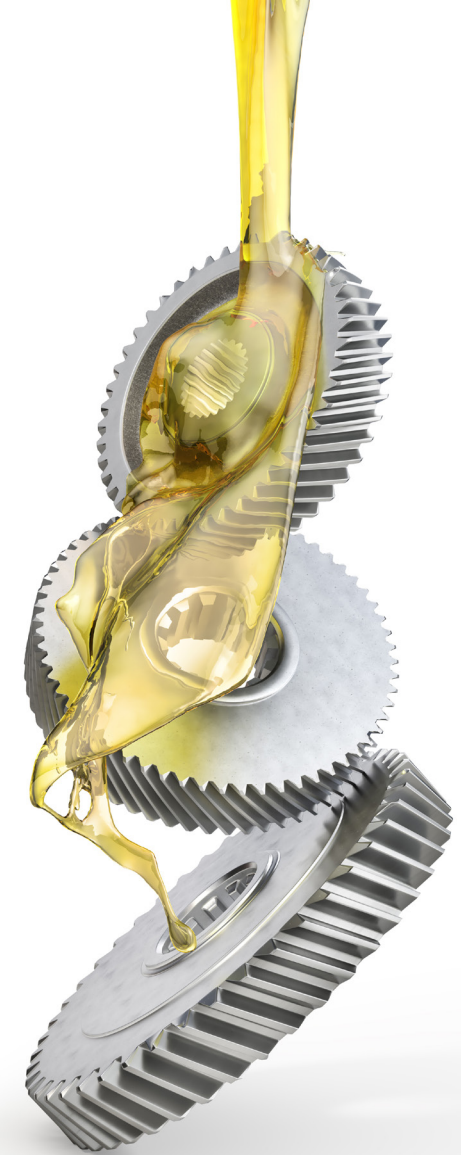

■ PFPE Öl Regenerat

We regenerate your PFPE waste oil and have already regenerated oil in stock.

■ VTO-K46

High-performance compressor oil with excellent thermal and oxidative ageing stability with oil-change intervals of up to 4000 Bh. (comparable to Atlas Copco Roto-Inject Ndurance, Alup Rotair Plus)

NEW

We will find a suitable oil for you
in 1 – 208 liter containers.
